

## What is the Veteran Services Program (VSP)?

The Veteran Services Program (VSP) at Success Rehabilitation is a comprehensive rehabilitation program that focuses on assessment and treatment for military service members and first responders who are experiencing symptoms due to having a primary diagnosis of mild to severe brain injury, or concussion.

## What are the criteria for admission to the Veteran Services Program?

- A primary diagnosis of a traumatic brain injury or concussion.
- Commitment to rehabilitation program.
- Approval from the assessment team.
- Approved funding for services.

## What Sets Us Apart?

Certified Brain Injury Specialists (CBIS) with experience working with military service members. We Offer:

- Physical and Rehabilitation Medicine
- Physical Therapy
- Occupational Therapy
- Speech/Language Pathology
- Cognitive Rehabilitation Therapy
- Recreational Therapy
- Case Management
- Nursing Services
- Psychology & Counseling Service
- Chaplaincy
- Counseling for those in recovery for substance abuse.
- Art & Music Therapy
- Equine-assisted therapy and more...

## Referral And Funding Information

- Individuals who have the primary diagnosis of a brain injury or neurological impairment can be referred, assessed, and admitted from various places including an individual's family/home, acute-care hospitals, sub-acute care locations, long-term acute care hospitals (LTACH) facilities, skilled nursing facilities (SNF), correctional or mental health facilities.
- Success Rehabilitation is an established community provider with Veterans Affairs (VA) and works with public funding sources—including Medicare and Medicaid Waiver programs, workers' compensation, trust funds, and private pay.
